

Training Guide

V 1.0, updated April 6, 2014

Sharing Content

Once you have uploaded content to your Screencast.com account, sharing your content is easy.

Follow the below steps to share your Screencast.com content with others.

Once you have content uploaded to your Screencast.com account, you will likely want to start sharing your content with others.

By default, uploaded content into your library will be “**Public**”, meaning that anyone will be able to view this information.

Note: Screencast.com provides several levels of security that includes Public, Hidden, Password, and Authenticated offering you control over who can/cannot see your information.

Please visit the **Privacy section** on **Screencast.com Help Center** for more details on each of these security levels at <http://www.screencast.com/help/>.

To share content that you have uploaded to your Screencast.com account, complete the following steps:

1. Locate your desired content that you want to share from your Screencast.com library.
2. Mouse-over the content you want to share and select the **Share**  icon:

Mouse-over your content and select the **Share**  icon.

3. **Share Content** window will appear with four different sharing options (each option will be discussed in more detail below):

Share Content
Help ▾

A

Share URL:

Copy and paste this URL to share content with viewers. For example paste into email or instant messages.

http://www.screencast.com/t/BIGUzJF6

B

Embed Link:

Copy and paste this HTML to embed a link to your content. For example embed this link on a web page or blog.

Uploading Content Example

C

Embed on your page:

HTML to embed this content on your website or blog.

```
<!-- copy and paste. Modify height and width if desired. --><iframe
class="tscplayer_inline embeddedObject" name="tsc_player" scrolling="no"
frameborder="0" type="text/html" style="overflow:hidden;"
src="http://www.screencast.com/users/stevensaxe/folders/Default/media/2c69c447-
9df9-4d09-8033-83932c5eb9dc/embed" height="768" width="1024"
webkitallowfullscreen mozallowfullscreen allowfullscreen></iframe>
```

Content size: width: px height: px [reset](#)

Generate Flash embed code with HTML5 fallback
 Generate Flash-only embed code ([Learn more](#))

D

Email Invitation:

Send Invitation

Done

- a. **Share URL:** copy and paste this URL to share this content (e.g., email message, IM chat, Twitter, etc.). *Link will direct to and content will play from your Screencast.com page.*
 - b. **Embed Link:** copy and paste this URL into an existing web page or blog. *Link will direct to and content will play from your Screencast.com page.*
 - c. **Embed on your page:** copy and page code into an existing web page or blog. *Content will play directly on your web page.*
 - d. **Email Invitation:** select  button and enter the email addresses of people you want to send an invitation to (email invitation will contain a URL). *Link will direct to and content will play from your Screencast.com page.*
4. Select  button to return to your Screencast.com library page.
 5. Your content is now ready to be viewed by the outside world!!!
